

Wouter Elshof

MSC, AAG
Principal, Consulting Actuary

CURRENT RESPONSIBILITY

Wouter is a principal and consulting actuary in the Amsterdam office of Milliman. He and his team are responsible for risk management activities in Benelux.

EXPERIENCE

Wouter has worked for more than 12 years in the financial and consulting industry. His specialty is in risk management and life insurance. His main focus is advising insurers and other financial institutions on developing and using risk and valuation models, such as asset-liability management (ALM), economic capital, embedded value (EV) and Solvency II in strategic decision making.

Wouter is a frequent speaker at professional seminars and has been teaching at the Institute for International Research (IIR) and the Dutch Actuarial Institute, where he has given multiple courses on economic capital, ALM, replicating portfolios and financial risk optimization.

AFFILIATIONS

Wouter is an active member of the Dutch Actuarial Association, where he is chair of the Solvency committee and member of the board of risk management professionals.

PROFESSIONAL DESIGNATIONS

- Fellowship, Institute of Actuaries of the Netherlands (Actuarieel Genootschap – AAG) specializing in Life Insurance and Finance

EDUCATION

- Master's degree, Econometrics and Operations Research, University of Groningen, Groningen, Netherlands
- Actuarial Science, University of Amsterdam (Finalized postgraduate education at the Dutch Actuarial Institute)
