

Nancy Watkins

FCAS, MAAA

Principal, Consulting Actuary

Current Responsibility

Nancy Watkins is a principal and consulting actuary with the Property and Casualty Practice in Milliman's San Francisco office. She manages an actuarial consulting practice that specializes in climate resilience, insurtech, and catastrophic property risk. She joined the firm in 1997.

Professional Work Experience

Nancy's consulting engagements include pricing and product development, predictive modeling, target marketing analysis, competitive rate analysis, use of catastrophe models and third party data, loss reserve analysis and certification, litigation support, reinsurance risk transfer analysis, reinsurance commutation support, software development support and market analysis, mergers and acquisitions support, arbitrations, and expert witness testimony.

Her clients include domestic and international insurance and reinsurance companies, trade associations, governmental insurance entities, virtual insurance companies, insurance software developers, general agencies, venture capitalists, and attorneys.

Nancy was president of Watkins Consulting Co. in Atlanta for six years. Prior to that, she was a senior manager and consulting actuary at Price Waterhouse. She also worked as an actuary for John Hancock Reinsurance and for Aetna Life & Casualty.

Professional Designation

- Fellow, Casualty Actuarial Society
- Member, American Academy of Actuaries

Education

BS, Mathematical Science, University of North Carolina, Chapel Hill

Presentations and Publications

Nancy has published articles, given presentations, and taught courses about climate change, flood insurance, wildfire risk, property analytics, ratemaking, predictive modeling, reinsurance, risk transfer, financial reporting, and virtual insurance companies.

Affiliations

- Nancy leads the Milliman Climate Resilience Initiative and serves on the United Nations Capital Development Fund's Climate Insurance Linked Resilient Infrastructure Finance Working Group, piloting climate adaptation financing for emerging markets and least developed countries.
- Nancy served on the American Academy of Actuaries Flood Insurance Work Group and won an Outstanding Volunteerism Award for her participation on the committee.
- She has participated in thought leadership forums on property insurance availability and affordability issues, sponsored by entities such as National Association of Insurance Commissioners, American Property Casualty Insurance Association, Council on Foreign Relations, Stanford University, Resources for the Future, and the Wharton Risk Management and Decision Processes Center.
- Nancy served as chair of the American Academy of Actuaries Committee on Property and Liability Financial Reporting. She is a member of the Financial Reporting Council, and a member of the Casualty Practice Council.
